

As an applicant - and in the future as an employee - you must be assured of permanent and direct contact with the management of MedicalBrokers in Ghana and in Europe. And at any time.

To have that certainty, a small group of health workers has joined together as a group, called: Health Expats Forum.

The management of MedicalBrokers is committed to answering all questions satisfactorily and quickly, but also listens to advice that benefits the working atmosphere and your stay in Europe.

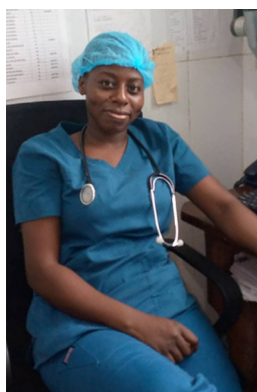

Please feel free to call one of your colleagues as indicated below for any question you might have:

Patience Nkrumah
